The International Development Association (IDA) of the World Bank Group (hereinafter the Bank) has provided a Grant finance for the preparation of the above referenced Project (PPG), through a trust fund secured from the Korea World Bank Group Partnership Facility (KWPF). The Bank is also securing a grant finance from the Green Climate Fund (GCF) to supplement KWPF grant for preparation of the Project.

The Royal Government of Bhutan will implement material measures and actions through the TT, so that the Project preparation grant activities (“the **PPG Activities**”) are implemented in accordance with the Environmental and Social Standards (**ESSs**) of the World Bank Environmental and Social Framework (ESF). This Environmental and Social Commitment Plan (**ESCP**) sets out material measures and actions, any specific documents, or plans, as well as the timing for each of these under implementation of the PPG Activities. The ESCP intends to be an early draft of an ESCP for the Project, and a more detailed ESCP will be prepared at project appraisal stage.

4. The Royal Government of Bhutan is responsible for compliance with all requirements of the ESCP even when implementation of specific measures and actions is conducted by the Thimphu Thromde referenced in 1. above.

As agreed by the Bank and the Royal Government of Bhutan, this ESCP may be revised from time to time during implementation of the PPG Activities, to reflect adaptive management of PPG Activities’ changes and unforeseen circumstances or in response to assessment of PPG Activities’ performance conducted under the ESCP itself. In such circumstances, the Royal Government of Bhutan will agree to the changes with the Bank and will update the ESCP to reflect such changes. Agreement on changes to the ESCP will be documented through the exchange of letters signed between the Bank and the Royal Government of Bhutan. The Royal Government of Bhutan will promptly disclose the updated ESCP.
